

BODY TOOLS
12" vinyl/digital (VV-018)

Sheela Rahman and Luke Wyatt are known for their respective solo work as Xosar and Torn Hawk.

Last year they began collaborating...hold on,
I just got an audible notification in my earpiece-- it seems "collaborating" is a word on their no-no list.
I'm receiving sharp zaps to my temple as the word stays on the page...
but forbidden usage is a theme of Rahman/Wyatt's work, so let's keep doing things that aren't allowed.

Sheela and Luke: last year they embarked on some shared make-believe.

They collect all this activity under the name Body Tools.
The BODY TOOLS 12" is the first formal document of their mischief.

For this record they have gathered charged objects and materials, and sealed them inside a cube:
Red metal, black satin. Women's hair, lion's teeth, wings.
On stage, appearing as the King of Locusts: a man who was once close to you.
Body Tools begins here.

Body Tools I will be released on vinyl on October 5, and digitally October 19 on Valcroud Video.
